

**The 2nd International Symposium on Biomedical Engineering
Young Researchers Poster Award**

Poster No	Day	Name	Affiliation	Title
A-1	11月9日	Kohei Asai	Tohoku University	Radiophotoluminescent Organic Materials Based on Photochromic Molecules
A-20	11月9日	Natsumi Fukaya	Nagoya University	Biomimetic Supramolecular Polymerization of Amide-functionalized Fluorescent Dye
A-22	11月9日	Rui Serizawa	Tokyo Institute of Technology	Mechanical Property of AuCuAl Biomedical Shape Memory Alloy Single Crystal Micropillar
B-50	11月9日	Mitsuru Naito	The University of Tokyo	ATP-responsive Polyion Complex Micelles for Programmed Intracellular Release of siRNA
A-73	11月10日	Hang Song	Hiroshima University	Microwave Confocal Imaging Utilizing a Cross-shaped Dome Antenna Array with Time-domain CMOS Radar System
B-115	11月10日	Takumi Okamoto	Hiroshima University	A Hardware Accelerator for Bag-of-features Based Visual Word Transformation in Computer Aided Diagnosis for Colorectal Endoscopic Images
B-116	11月10日	Daisuke Ogasawara	Tokyo Institute of Technology	Development of Supersonic Pulsed Plasma Jet Source for High-speed Hemostasis Treatment
